The rates for existing benefit plans are included in this filing and will become effective for existing business September 1, 2011. All rate changes will be implemented on September 1, 2011.

Note due to system implementation issues, the rates filed and approved associated with the HCR regulations (see SERFF Tracking Number AETN-126731140, approved on September 23, 2010) were implemented on a January 1, 2011 effective date. However, all benefits were updated with an effective date of October 1, 2010. The benefit plans and monthly premium rates associated with this postponement are referenced as Block E.

Block Definitions

Please note the following block definitions as they will apply to the items discussed in this filing.

- Block A – Defined by benefit plans released prior to June 1, 2008 where monthly premium rates were developed using 5-year age bands and a tabular contract tier logic.
- Block B – Defined by benefit plans released June 1, 2008 through December 31, 2009 where monthly premium rates were developed using single-year age bands and a dynamic member-level rating methodology. In addition, these contracts were not subject to the subsequently filed quarterly rating methodology.
- Block C – Defined by plans released January 1, 2010 through June 30, 2010 where monthly premium rates were developed using single-year age bands and a dynamic member-level rating methodology. Contracts issued during this period were subject to our quarterly rating methodology.
- Block D – Defined by plans originally issued July 1, 2010 through December 31, 2010, where monthly premium rates were developed using single-year age bands and a dynamic member-level rating methodology. Regarding contracts issued October 1, 2010 through December 31, 2010, these contracts were sold in compliance with the benefit parameters set forth through Federal Healthcare Reform (HCR).
- Block E – Defined by plans and rates originally filed for release effective October 1, 2010 in compliance with the benefit parameters set forth through HCR, but postponed for implementation due to system delays. Monthly premium rates were developed using single-year age bands and a dynamic member-level rating methodology. These plans and rates were subsequently implemented for new business effective January 1, 2011 through August 31, 2011, and were/are available to new business and renewal business during that period.
- Block F – Defined by the new benefit plans proposed in this filing, where monthly premium rates are developed using single-year age bands and a dynamic member-level rating methodology. The benefits are in compliance with HCR. The development of the proposed base monthly premium rates for these benefit plans is discussed later in this filing. The proposed monthly premium rates for these plans are applicable to new business contracts with original effective dates of September 1, 2011 and later, and as well are applicable to any existing members choosing to migrate to these new plan designs.

Applicability

This rate filing is intended for new and existing business. There are no pending form filings at this time.

Historical Experience

The inception of this block of business was February 1, 2005. Exhibit A presents experience for this block of business since inception through December 31, 2010, paid through December 31, 2010.

Historic Rate Changes

Exhibit B details historic rate changes since inception.

Proposed Percentage Rate Change and Premium Rate Development

We are proposing an overall average premium rate reduction of approximately 10% for all existing plans. Our assumption of medical claim trend in Connecticut has been held consistent with our previously filed assumption of approximately 8.5%. Given consideration to our Connecticut-specific experience, market conditions, and the developing effects and regulations associated with Federal Healthcare Reform, we are proposing a base premium rate decrease which varies by plan ranging from a 19.5% decrease to a 5% decrease, and results in the aggregate rate decrease of approximately 10.0%, as noted above. As discussed in the “Quarterly Rating” section below, we will be suspending our quarterly rating methodology and resetting our quarterly factors to 1.000. As we complete this change, we expect that members renewing in quarters which historically had a non-1.000 quarterly factor will realize a greater rate reduction. The additional rate reduction is expected to be approximately 1.2%.

The following table presents the current base premium rates for all existing plans as previously filed in SERFF Filing Number AETN-126482725 and AETN-126731140, approved on April 13, 2010 and September 23, 2010, respectively. These base premium rates are stated as of the July 1, 2010 effective rate level.

The proposed base premium rate for each plan design is the product of the following: 1) the currently filed base premium rate, from above; and 2) the rate change factor, from above. The result is rounded to the nearest cent. The following table presents the resulting proposed base premium rate by plan by defined block of business.

Monthly premium rates by plan for our standard risk classification are developed by calculating the product of the following: 1) the proposed base premium rate, as shown above; 2) the applicable Age/Gender Factors, as provided in Exhibit E; and 3) the applicable Rating Area Factor, as shown in

Exhibit F. This result is rounded to the nearest dollar. The proposed monthly premium rates are shown in Exhibit H through Exhibit L.

Quarterly Rating

Beginning with policies effective September 1, 2011, we will be temporarily suspending our previously filed and approved quarterly rating methodology. Hence, the base premium rates for all plans referenced in this filing will be subject to a quarterly trend factor of 1.000, as detailed in the following table:

Effective Date	Factor Applied to September 1, 2011 Base Rate
09/01/2011 – 09/30/2011	1.000
10/01/2011 – 12/31/2011	1.000
01/01/2012 – later	1.000

Upon reinstatement of our quarterly rating methodology, we will notify the Department via a rate filing submission which will include the applicable factors by quarterly cohort.

Proposed Plans

This filing also proposes ten new benefit plans which are listed below:

- MCOA \$1,500 (version 09/01/2011, Block F)
- MCOA \$2,500 (version 09/01/2011, Block F)
- MCOA \$5,000 (version 09/01/2011, Block F)
- MCOA \$7,500 with Unlimited Primary Care Visits (version 09/01/2011, Block F)
- MCOA Value \$3,000 (version 09/01/2011, Block F)
- MCOA Value \$5,000 (version 09/01/2011, Block F)
- MCOA Value \$10,000 (version 09/01/2011, Block F)
- MCOA HDHP \$3,500 (version 09/01/2011, Block F)
- MCOA HDHP \$5,500 (version 09/01/2011, Block F)
- MCOA Preventative and Hospital Care \$2,750 (version 09/01/2011, Block F)

A summary of benefits for each plan design is provided in Exhibit G, accompanying this filing. Upon approval from the State of Connecticut, these plans and premium rates will become effective and available for new and existing business September 1, 2011 and later.

Premium Rate Development

The base premium rates for each of the new plan designs were developed by applying a benefit relativity factor to the base premium rates for an existing plan design. The benefit relativity factors reflect the actuarial value of the different benefit plans. The table below shows the relativity factor for each of the benefit plan designs, as well as the plan to which the factor was applied.

<u>New Benefit Plan (Block F)</u>	<u>Benefit Relativity Factor</u>	<u>Factor Applied to Existing Benefit Plan (Block E)</u>

In addition to the application of the benefit relativity factor, the base premium rates for each of the existing plan designs was adjusted by the proposed base premium rate change as discussed in the section above titled “Proposed Percentage Rate Change and Premium Rate Development”.

The following table provides a restatement of the currently filed base premium rates for each of the applicable existing plan designs, as well as the applicable proposed base premium rate change and the applicable benefit relativity factor as discussed above and as used in the development of the new benefit plan base premium rates. In addition, the following table provides a listing of the resulting new benefit plans and the associated new benefit plan base premium rates.

Monthly premium rates by plan for our standard risk classification are developed by calculating the product of the following: 1) the resulting base premium rate, as shown above; 2) the applicable Age/Gender Factors, as provided in Exhibit E; and 3) the applicable Rating Area Factor, as shown in Exhibit F. This result is rounded to the nearest dollar.

The proposed rates for the new benefit plans are shown in Exhibit M. Upon approval from the State of Connecticut, the rates will become effective September 1, 2011.

Demographic Factors

Age/gender slopes vary by plan and original coverage effective date ranges. These age/gender factors remain unchanged from prior filings. Exhibit E shows the age/gender factors.

Area Factors

Area factors vary by geographical location and remain the same as our previous filing. Please note that rating area definitions remain unchanged from our previous filing. The area factors are included in Exhibit F.

Lifetime Loss Ratio

The anticipated lifetime loss ratio is 80% for this product.

Rates for Couple, Parent/Child(ren), and Family Contracts

Rates for Single contracts are based on a table look up using attained age and sex of the individual.

For contracts issued prior to June 1, 2008, the calculation of multi-party contracts is based on calculations for the single contract as follows:

- Couple Contracts: Charged a premium equal to the premium of a Single Male plus the premium of a Single Female of the same age.
- Male and Child(ren): Charged a premium equal to the premium of a Single Male plus twice the premium of a child Age 2-18.
- Female and Child(ren): Charged a premium equal to the premium of a Single Female plus twice the premium of a child Age 2-18.
- Family: Charged a premium equal to the premium of a Couple plus twice the premium of a child Age 2-18.

Note, our current dependent age guidelines for contracts issued to residents of the State of Connecticut allow for coverage of dependent children up to age 26.

Premium rates for Couple, Parent/Child, and Family contracts issued on June 1, 2008 and later will be determined by the sum of the individual level rates based on attained age and gender of each member enrolled on the contract.

As previously communicated, multi-person contracts issued with original effective dates of June 1, 2008 through March 31, 2011, were issued with a limit on the maximum number of covered child dependents for which a respective premium would be assigned with respect to Parent/Child(ren) and Family contracts. For multi-person contracts issued April 1, 2011 and later, this previously communicated limit was removed. The change was primarily driven by changes to dependent age coverage requirements resulting from Federal Healthcare Reform. This modification did not impact contracts issued prior to April 1, 2011. Further, this modification has had no impact on the base monthly premium rates contained in this filing.

Underwriting and Premium Classes

Policy forms will be subject to medical underwriting. This filing proposes no changes to the general underwriting guidelines or our currently filed premium classifications discussed in our most recent rate filings.

We have developed underwriting guidelines which determine which underwriting classification to place prospective members. These underwriting guidelines are based on the anticipated additional cost that would be attributable to the member's known medical conditions. These additional costs are based upon the judgment of medical personnel of the likelihood and frequency of necessary treatment for the known medical conditions as well as the cost of that treatment.

For business issued prior to June 1, 2008, underwriting classifications are referred to as Level A, Level B, and Level C. Level A members will receive coverage at our lowest rates. Underwriting classification loads vary by rate-ups of 25% (Level B) and 50% (Level C) greater than the Level A rates.

For business issued June 1, 2008 and later, policies are issued at eleven different underwriting levels. The lowest underwriting level would represent our standard level.

The lowest underwriting level is our standard level, which is assigned a 0% rate-up. There are ten additional underwriting levels comprised of rate-up factors ranging from 10% to 100%. Rate-up factors will be assigned in increments of 10% up to a rate-up of 100%. The final rate for the underwritten policy will be determined as the standard rate multiplied by $(1 + \text{rate-up-factor})$.

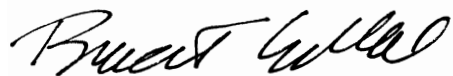

The underwriting classification will be assigned at the time the policy is issued, and will not be changed by Aetna if a member's health deteriorates after purchasing coverage. However, if the member applies to change their benefits, we will consider the member's medical condition at the time of the change request. If their health status at the time of the request warrants a different underwriting classification, then the member can accept the new coverage at the different underwriting classification or remain in their current coverage at their current underwriting classification.

Proposed Effective Date

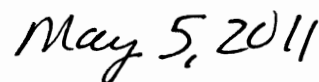

We are proposing an effective date of September 1, 2011.

Actuarial Certification

I, Bruce T. Campbell, am a Fellow of the Society of Actuaries, a member of the American Academy of Actuaries, and am qualified in the area of health insurance. I certify that, to the best of my knowledge and judgment, the entire rate filing is in compliance with the applicable laws of the State of Connecticut and with the rules of the Department of Insurance, and complies with Actuarial Standard of Practice No. 8, "Regulatory Filings for Rates and Financial Projections for Health Plans," as adopted by the Actuarial Standards Board, January, 2005, which standard is hereby adopted and incorporated by reference, and that the benefits provided are reasonable in relation to the proposed premiums.

Individual Health Insurance Medical Policy
Policy Form(s): GR-11741-HCRng 01, GR-11741-SOC (12/08), and GR-96400
Aetna Filing Number: CT-2011-09-01**

Dear Mr. Lombardo:

We enclose, for your Department's approval, a rate filing for the above-referenced forms that provide Comprehensive Medical Expense insurance coverage to residents of the State of Connecticut. This rate filing is intended for both existing and new business. Upon approval, the rates proposed in this filing will become effective on September 1, 2011.

This filing proposes rate reductions which vary by plan design from approximately 5% to 19.5%, and reflect an aggregate reduction of about 10%.

The following information is provided in compliance with the State of Connecticut's health insurance rate filing submission guidelines:

1. Historical experience from inception-to-date - this includes earned premium, paid claims, incurred claims, members, actual loss ratios and expected loss ratios (monthly experience for the most recent two years; annual experience for prior years).

Exhibit A shows historical experience from January 2007 through December 2010, paid through December 2010.

2. Unit cost trend by broad service category, including actual unit cost data and impact of provider contract changes from experience period to rating period (medical and Rx separately).

Exhibit B shows unit cost data by service category from 2008 through first quarter 2011, paid through March 2011.

3. Utilization trend by broad service category, including utilization data.
Exhibit B shows utilization data by service category from 2008 through first quarter 2011, paid through March 2011.

Also note that the trends in Exhibit B are net trend. The normalized trend is approximately 8.5% and was used in our claims projection.

4. Impact of cost sharing leverage on trend.

Please note that Aetna does not separately measure this component of trend.

5. Medical technology trend.

Please note that Aetna does not separately measure this component of trend.

6. Benefit buy-down analysis and impact on trend.

The average Individual benefit plan relativity (medical and pharmacy combined) is:

2008	0.980
2009	0.907
2010	0.873

The benefit plan relativity is used to adjust PMPMs during the claim projection and normalization process.

7. Cost of each new benefit mandate or requirement due to change in law, separately identified, from the experience period to the rating period. This includes requirements of both state and federal law.

At this time, there are no new mandates effective during the rating period. A separate rate filing will be submitted for any new mandates.

8. A list of each component of the health care reform bill that impacted premium and the actual impact used in pricing for each component.

This rate filing conforms with the benefit plan provisions required by the Patient Protection and Affordability Act (P.L. 111-148) of 2010. The impact of the HCR bill has been included in our rate filing submitted to the State of Connecticut Insurance Department in July 2010 (SERFF AETN-126731140), approved on September 23, 2010.

9. Provide a comparison of the proposed retention charge in the filing to the most recently filed statutory financial statement for the regulated entity.

The proposed retention charge used in projecting claims is 21.3%. This does not include profit. The "Supplemental Health Care Exhibit – Part 1" for calendar year 2010 (page 215.1.CT) shows a retention amount of 23.7%. We anticipate an improvement in operating expenses over time.

10. Claim lag triangles

The attached Claim Lag Triangle for Aetna's Individual Voluntary is shown in Exhibit C. This triangle reflects medical benefits only and covers claims incurred and paid from April 2007 through March 2011.

11. A demonstration that the increase requested in this rate filing will produce an expected medical loss ratio, for rebate purposes, that is consistent with the 80% prescribed by the federal law for individual and small group health insurance.

We are requesting a rate decrease with this rate filing that will be effective for all policies on September 1, 2011. It is anticipated that a rebate will be paid for these plans for calendar year 2011 consistent with the federal minimum loss ratio requirements. Because of this, we are trying to bring these plans to a reasonable rate level over a period of years, in order to avoid a rate decrease followed by a material rate increase in the next year while at the same time members are receiving a rebate. This circumstance will be confusing and disruptive to members. Hence, at this time, we do not expect a significant rate increase for these policies in 2012.

12. Actuarial certification signed by a Member of the American Academy of Actuaries (MAAA).

Actuarial Certification is attached as Exhibit D.

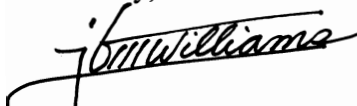

This rate filing submission also includes the following:

- Actuarial Memorandum
- Exhibit E – Age/Gender Factors
- Exhibit F – Rating Area Factors
- Exhibit G – Summary of Benefits
- Exhibits H to M – Proposed Monthly Premium Rates

As required, we are also including pages 11 and 24.CT of Aetna Life Insurance Company Annual Statement for the year 2010.

If you need additional information, please do not hesitate to contact me at the address or telephone number shown above.

Sincerely,

Josephine Williams
Actuarial Manager
