**The attached information contains confidential, proprietary information and trade secrets. This information is protected from disclosure by Conn. Gen. Stat. § 1-210(b)(5).**

**PREMIUM CALCULATIONS**

**Calculated Medical Premium**

For each person,

Medical Premium(monthly) = RDC of

Base Rate  
x Plan Factor  
x Age Factor  
x Tobacco Factor (if applicable)  
x Area Factor

RDC = Round to 2 decimals

Sum the Medical Premium for all persons to be covered. This Subtotal is the Calculated Medical Premium.  
Note: Only the 3 oldest dependent children under the age of 21 will be included in the premium calculation.

Total Quarterly Premium = Total Monthly Premium \* 3

**\*\*Notes\*\***

There is an administrative fee for processing checks returned for non-sufficient funds.  
This will only be imposed after the insured has received written notice of the fee.

Trade secrets, which for purposes of the Freedom of Information Act, are defined as information, including formulas, patterns, compilations, programs, devices, methods, techniques, processes, drawings, cost data, customer lists, film or television scripts or detailed production budgets that (i) derive independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from their disclosure or use, and (ii) are the subject of efforts that are reasonable under the circumstances to maintain secrecy. Conn. Gen. Stat. § 1-210(b)(5)

### **Connecticut**

### **Part III - Federal Actuarial Memorandum (URRT)**

#### **UnitedHealthcare Insurance Company**

**NAIC Number: 79413**

**FEIN: 36-2739571**

### **Purpose**

Following is a rate filing prepared by UnitedHealthcare Insurance Company. This filing has been prepared to provide information to the Department of Health and Human Services and the Connecticut Insurance Department. The rates apply to individual On-Exchange health benefit plans that are not grandfathered under PPACA.

The purpose of this actuarial memorandum is to provide information relevant to Part I - Unified Rate Review Template (URRT).

This memorandum is intended solely for the information of and use by the Department of Health and Human Services and the Connecticut Insurance Department. It will demonstrate compliance with state and federal laws and regulations and is not intended to be used for any other purpose.

### **General Information**

#### Company Identifying Information

Company Legal Name: UnitedHealthcare Insurance Company

Company State: Connecticut

HIOS Issuer ID: 49650

HIOS Product IDs: Please see "Product IDs" in SERFF

Market: Individual

Effective Date: 01/01/2015

#### Company Contact Information

Primary Contact Name: Joseph Polley

Primary Contact Telephone Number: (317) 715-7579

Primary Contact Email Address: jpolley@unitedhealthone.com

### **Proposed Rate Increase(s)**

This is an initial filing. There is no rate increase.

### **Experience Period Premium and Claims**

No individual experience exists under UnitedHealthcare Insurance Company for the experience period of 1/1/13 – 12/31/13.

### **Benefit Categories**

Claims were assigned to each of the benefit categories based on the places services were administered and types of medical services rendered.

Trade secrets, which for purposes of the Freedom of Information Act, are defined as information, including formulas, patterns, compilations, programs, devices, methods, techniques, processes, drawings, cost data, customer lists, film or television scripts or detailed production budgets that (i) derive independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from their disclosure or use, and (ii) are the subject of efforts that are reasonable under the circumstances to maintain secrecy. Conn. Gen. Stat. § 1-210(b)(5)

### **Projection Factors**

UnitedHealthcare Insurance Company has no individual experience and therefore no need for projection factors.

### **Credibility Manual Rate Development**

These rates will be used on a guarantee issue basis. As UnitedHealthcare Insurance Company does not have any relevant historical experience for individual medical guarantee issue products, we relied on the guarantee issue claims experience of affiliated small group carriers to develop the credibility manual rate.

The experience used in the development of these rates is net of the appropriate coordination of benefit recoveries. Therefore, the rates reflect the necessary equitable reduction in premiums or costs to beneficiaries of such other insurance or contract rights.

### **Credibility of Experience**

We believe that the affiliated small group experience used for developing the manual rates for this product to be fully credible. We did not use a specific credibility formula for this determination, but rather informed actuarial judgment. As ASOP 25, section 3.4 states: “Informed Actuarial Judgment - Any credibility procedure requires the actuary to exercise informed judgment, using relevant information. The use of credibility procedures is not always a precise mathematical process.”

### **Paid To Allowed Ratio**

A paid-to-allowed ratio was estimated for each plan by trending small group claims experience to 2015 and accounting for the variation in cost-sharing parameters. These ratios were then weighted by the projected membership per plan in Worksheet 2 to calculate the paid-to-allowed average factor shown in Worksheet 1.

### **Risk Adjustment and Reinsurance**

#### **Projected Risk Adjustments (PMPMs)**

We are assuming zero net payment for risk adjustments.

#### **Projected ACA Reinsurance Recoveries Net of Reinsurance Premium**

Projected ACA Reinsurance Recoveries Net of Reinsurance Premium

Reinsurance recoveries are expected to be 7.9% of incurred claims. This amount was derived using individual nationwide experience trended to 2015. The recoveries were calculated using the 2015 reinsurance parameters, as published in the HHS Notice of Benefit and Payment Parameters for 2015.

The HHS Notice of Benefit and Payment Parameters for 2015 specifies a reinsurance premium of \$3.67 PMPM.

Trade secrets, which for purposes of the Freedom of Information Act, are defined as information, including formulas, patterns, compilations, programs, devices, methods, techniques, processes, drawings, cost data, customer lists, film or television scripts or detailed production budgets that (i) derive independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from their disclosure or use, and (ii) are the subject of efforts that are reasonable under the circumstances to maintain secrecy. Conn. Gen. Stat. § 1-210(b)(5)

**Non-Benefit Expenses and Risk Margin**

Administrative Expenses

The 7.9% Administrative Expense Load in Worksheet 1 includes commissions, quality improvements, and SG&A.

1. Commissions: We assumed an average 2.5% commission rate
2. Quality Improvements: We assumed a 0.18% adjustment for quality improvement expenses based on data from an affiliated carrier.
3. SG&A: We based our general and administrative expenses on affiliated individual carrier experience. For this product in the state of Connecticut, this equates to approximately 5.25% of premium for 2015.

Profit & Risk Margin

Our projected 2015 premiums include 1.6% of premium for risk, contingency and profit margin. This assumption was derived as: 3.6% pre-tax underwriting gain, less income taxes payable on the underwriting gain and on the insurer fee, which is not deductible for income tax purposes.

Premium	100.0%
Claims	-89.7%
Reinsurance Recoveries	7.1%
Quality Improvements	-0.2%
Risk Adjustment Payments	0.0%
Premium Tax	-1.8%
Reinsurance Fee	-0.6%
Exchange User Fee	-1.4%
Risk Adjustment User Fee	-0.0%
PCORI Fee	-0.0%
Insurer Fee	-2.2%
Commission	-2.5%
SG&A	-5.3%
<b>Pre-Tax Income:</b>	<b>3.6%</b>
Income Tax	-2.0%
<b>After-Tax Income:</b>	<b>1.6%</b>

Trade secrets, which for purposes of the Freedom of Information Act, are defined as information, including formulas, patterns, compilations, programs, devices, methods, techniques, processes, drawings, cost data, customer lists, film or television scripts or detailed production budgets that (i) derive independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from their disclosure or use, and (ii) are the subject of efforts that are reasonable under the circumstances to maintain secrecy. Conn. Gen. Stat. § 1-210(b)(5)

Taxes and Fees

The 7.3% Taxes and Fees in Worksheet 1 includes premium tax, insurer fees, PCORI fees, risk adjustment fees, and federal income tax.

1. Premium Tax: This includes Premium, State, Local and Other taxes and assessments. The projected premium tax rate is 1.75% in the state of Connecticut.
2. Exchange User Fee: Exchange fees in Connecticut are 1.35%
3. Insurer Fees: This is a permanent fee that applies to fully insured coverage. This fee will fund tax credits for insurance coverage purchased on the exchanges. The total fee increases from \$8B in 2014 to \$14.3B in 2018 (indexed to premium for subsequent years.) Each insurance carrier's assessment will be based on earned health insurance premiums in the prior year, with certain exclusions. UnitedHealthcare Life (an affiliated company of UnitedHealthCare Mid-Atlantic) estimates 2.2% of 2015 premium will be allocated for insurer fees.
4. PCORI Fees: This product will be offered for the 2015 plan year, with a PCORI fee of \$2 per member per year, or \$0.17 PMPM. For this product in the state of Connecticut, this equates to approximately 0.03% (less than 0.1%) of premium.
5. Risk Adjustment User Fee: This product will be offered for the 2015 plan year, with a Risk Adjustment User Fee of \$0.08 PMPM. For this product in the state of Connecticut, this equates to approximately .01% (less than .1%) of premium.
6. Federal Income Tax: Income tax is projected to be 2.0% of premium and is calculated as 35% x (Pre-Tax Income + Insurer Fees), since insurer fees are not tax deductible.

**Projected Loss Ratio**

The projected loss ratio using the federally prescribed MLR methodology for calendar year 2015 is 89.9%.

Claims	89.7%
Reinsurance Recoveries	-7.1%
Quality Improvements	0.2%
Risk Adjustment Payments	0.0%
<b>Total MLR Claims</b>	<b>82.7%</b>
Premium	100.0%
Premium Tax	-1.8%
Income Tax *	-2.0%
Reinsurance Fee	-0.6%
Insurer Fee	-2.2%
Exchange User Fee	-1.4%
PCORI Fee	-0.0%
Risk Adjustment User Fee	-0.0%
<b>Total MLR Premium</b>	<b>92.1%</b>
<b>MLR:</b>	<b>89.9%</b>

*\*35% of Pre-Tax Income Minus Insurer Fee (Not Tax-Deductible)*

Trade secrets, which for purposes of the Freedom of Information Act, are defined as information, including formulas, patterns, compilations, programs, devices, methods, techniques, processes, drawings, cost data, customer lists, film or television scripts or detailed production budgets that (i) derive independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from their disclosure or use, and (ii) are the subject of efforts that are reasonable under the circumstances to maintain secrecy. Conn. Gen. Stat. § 1-210(b)(5)

### **Single Risk Pool**

The single risk pool reflects all covered lives for every non-grandfathered product/plan combination for individual products in the state of Connecticut. It is established in accordance with the requirements in 45 CFR part 156, 156.80(d).

### **Index Rate**

The index rate represents 99.35% of the projected allowed claims PMPM for this block of business in the state of Connecticut. We anticipate that no benefits will be in excess of the Essential Health Benefits. As shown in the Unified Rate Review Template, the projected index rate for 2015 is \$639.41

### **Market Adjusted Index Rate**

The Market Adjusted Index Rate includes the following adjustments:

- Federal reinsurance program adjustment- The reinsurance adjustment includes the expected reinsurance recoveries and reinsurance fees. The total impact is expected to be \$38.04 on a PMPM basis. Please see the ‘Projected ACA Reinsurance Recoveries’ sections for a brief description of how these were calculated.
- Risk adjustment- No risk adjustments are expected for this filing.
- Risk adjustment user fee adjustment – The exchange user fee is expected to be a PMPM of \$.08.

$$(\text{MAIR}) \$601.45 = (\$639.41 - 38.04 - (-.08))$$

Based on the formula above, the Market Adjusted Index Rate is equivalent to \$601.48.

### **Plan Adjusted Index Rates**

The plan adjusted index rates are summarized below:

- UnitedHealthcare Gold Choice Plus \$1,00- – \$651.23
- UnitedHealthcare Silver Choice Plus \$2,600 – \$603.00
- UnitedHealthcare Bronze Choice Plus \$5,000 – \$475.16
- UnitedHealthcare Bronze Choice Plus HSA \$4,600 – \$471.54
- UnitedHealthcare Gold Choice Plus HSA \$1,300 – \$637.37
- UnitedHealthcare Silver Choice Plus HSA \$2,075 – \$603.60

The plan adjusted index rates were calculated by applying the average net-to-allowed factor to the market adjusted index rate and then adjusting for all allowable plan modifiers. The index rates vary due to different actuarial values and cost sharing methods by plan.

The weighted average plan adjusted index rate is \$588.93.

### **Calibration**

A calibration factor of 1.706 is used to adjust the Plan Adjusted Index Rate in order to calculate the Consumer Adjusted Premium Rates. The adjustments under the calibration method include all allowable rating factors (age and geography). As stated by the filing instructions, the calibration factor does not vary by plan and it is a common value to all plans included in this filing.

Trade secrets, which for purposes of the Freedom of Information Act, are defined as information, including formulas, patterns, compilations, programs, devices, methods, techniques, processes, drawings, cost data, customer lists, film or television scripts or detailed production budgets that (i) derive independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from their disclosure or use, and (ii) are the subject of efforts that are reasonable under the circumstances to maintain secrecy. Conn. Gen. Stat. § 1-210(b)(5)

**Age Curve Calibration-** The age curve calibration of 1.706 is based on the weighted average age of 49. It is based solely on the expected age distribution of non-grandfathered insureds in Connecticut. The HHS unisex rating factors were used for this calculation.

**Geographic Factor Calibration-** The geographic factor calibration of 1.000 is based on the expected distribution of covered individuals within the 8 allowable rating areas of Connecticut. The expected distribution was developed based on current non-grandfathered experience in Connecticut for an affiliated carrier. The analysis uses historical county area factors (based on provider and hospital contracting) to estimate the proposed area factors.

### **Consumer Adjusted Premium Rate Development**

The consumer adjusted premium rate (CAPR) is the final premium rate that is charged to an individual utilizing the rating and premium adjustments as articulated in the applicable Market Reform Rating Rules. The CAPR is developed by dividing the Plan Adjusted Index Rate by the total calibration factor.

$$\text{CAPR} = \$588.93 \text{ (PAIR)} / 1.706 = \$345.21$$

### **AV Metal Values**

Our plan designs include post deductible copays. This benefit design is directly compatible with the AV calculator. For these unique plan designs, the alternate method described in 45 CFR 156.135(b)(2) was used for the AV calculations. Following is a description of how the inputs for these unique benefits were modified to fit the parameters of the AV calculator.

#### **Benefits that Vary Based on Place of Service**

For some types of services, our plan designs include different benefit levels based on the place of service (i.e. physician's office, free standing facility, or outpatient hospital facility). To incorporate this differentiation in benefits, the Narrow Network Option was selected within the AV calculator, and utilization was assigned to each tier based on historical experience of affiliated carriers

### **AV Metal Values**

Our plan designs include post deductible copays. This benefit design is not directly compatible with the AV calculator. For this unique plan design, the alternate method described in 45 CFR 156.135(b)(2) was used for the AV calculations. Following is a description of how the inputs for this unique benefit was modified to fit the parameters of the AV calculator.

### **Post Deductible Copays**

In order to modify the inputs for this type of benefit design to fit the parameters of the AV calculator, the following formula was used to estimate the insurer's cost share.

$$\text{Effective Insurer Coinsurance Rate} = 1 - \frac{\text{Member Copay}}{\text{Average Unit Cost}}$$

The benefit was then marked as "Subject to Deductible" and "Subject to Coinsurance" with a "Coinsurance, if different" equal to the effective insurer coinsurance rate as calculated above.

Trade secrets, which for purposes of the Freedom of Information Act, are defined as information, including formulas, patterns, compilations, programs, devices, methods, techniques, processes, drawings, cost data, customer lists, film or television scripts or detailed production budgets that (i) derive independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from their disclosure or use, and (ii) are the subject of efforts that are reasonable under the circumstances to maintain secrecy. Conn. Gen. Stat. § 1-210(b)(5)

The average unit cost was calculated based on the claims data included within the AV calculator continuance tables for each metal level. If the plan was expected to fall within a Silver Metal Tier, the average unit cost was calculated from the Silver continuance tables. Only those enrollees with claims greater than the plan deductible will pay the post deductible copay. Therefore, only those enrollees with total spending greater than the specified plan deductible were included in the calculation of the average unit cost for each benefit type.

### **AV Pricing Values**

The medical plan price relativities were developed using the proprietary UnitedHealthcare pricing model. This model uses UnitedHealthcare nationwide experience data, and is fully credible. Claim data is then projected to the pricing period based on national projections of utilization and unit costs. These projections are done at the service category (inpatient, outpatient, etc.) level. Benefit design parameters such as deductibles, copays, and coinsurance are applied to the claim distributions of the matching service category. This cost-sharing is applied, and the values of each service category are summed to come up with the overall benefit value. This overall benefit value is then compared to a base benefit design to calculate the plan relativity. All benefit plans are priced consistently with each other, with the rates different only by the estimated value of the benefit differences.

In order to preserve consistency, the same claim experience and projection assumptions are applied to all plan relativity calculations. The plan specific adjustments to the market wide index rate do not reflect differences in health status or risk selection.

### **Membership Projections**

Since this is a new product with no historical experience, membership was estimated based on informed judgment.

### **Terminated Products**

There will be no terminated products.

### **Plan Type**

These plans are POS plans.

### **Warning Alerts**

No warning alerts.

Trade secrets, which for purposes of the Freedom of Information Act, are defined as information, including formulas, patterns, compilations, programs, devices, methods, techniques, processes, drawings, cost data, customer lists, film or television scripts or detailed production budgets that (i) derive independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from their disclosure or use, and (ii) are the subject of efforts that are reasonable under the circumstances to maintain secrecy. Conn. Gen. Stat. § 1-210(b)(5)

### **Actuarial Certification**

I, Joseph Polley, am an Associate Director of Actuarial Services for United Healthcare's Employer and Individual Line of Business, which includes UnitedHealthcare Insurance Company health insurance products marketed to individuals. I am a member of the American Academy of Actuaries and meet the Academy's qualification standards for rendering statements of actuarial opinion with respect to the filing of rates for health insurance products.

To the best of my knowledge and judgment:

- The projected Index Rate is in compliance with all applicable State and Federal Statutes and Regulations, and it was developed in compliance with the applicable Actuarial Standards of Practice.
- The benefits are reasonable in relation to the premiums charged and the population anticipated to be covered. In addition, premiums are not inadequate, excessive, or unfairly discriminatory.
- Only the allowable modifiers were used to generate plan level rates.
- The percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.
- The AV Calculator was used to determine the AV Metal Values for the metal level plans.
- The Unified Rate Review Template does not demonstrate the process used by the issuer to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for Federally facilitated exchanges, and for certification that the index rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

The following policy forms apply to this block of business:

**IEXPOL.I.15.CT et al.**

The following is a list of bulleted points from the Connecticut Department of Insurance Bulletin HC-81-14. For each bullet point, we have indicated where the information can be found in our submission.

- Benefit buy-down analysis and impact on trend.
  - Since all Non-Grandfathered Non-ACA compliant plans will be terminated and offered new ACA Compliant plans, no benefit buy-downs within a plan are expected to occur.
- A list of each component of the health care reform bill that impacted premium and the actual impact used in pricing for each component (Part III Memorandum)
- A demonstration that the increase filed in this rate filing will generate an expected medical loss ratio, for rebate purposes, that is consistent with the 80% prescribed by the federal law for individual health insurance. (Part III Memorandum)
- Actuarial certification signed by a Member of the American Academy of Actuaries (MAAA). (Part III Memorandum)

This is an initial filing. As result many of the bulleted points from the Connecticut Department of Insurance Bulletin HC-81-14 cannot be provided due to lack of relevant experience.

- Historical experience from inception-to-date, this includes earned premium, paid claims, incurred claims, members, actual loss ratios and expected loss ratios (annual experience is appropriate for all years; monthly experience for most recent two years).
- A demonstration that the experience data submitted is consistent with the most recent financial statement filed with the Department pursuant to section 38a-53a of the Connecticut General Statutes.
- Unit cost trend by broad service category, including actual unit cost data and impact of provider contract changes from experience period to rating period (medical and prescription drug separately).
- Utilization trend by broad service category, including utilization data.
- Impact of cost sharing leverage on trend.
- Medical technology trend.
- Cost of each new benefit mandate or requirement due to change in law, separately identified, from the experience period to the rating period. This includes requirements of both state and federal law.
- A comparison of the proposed retention charge in the filing to the most recently filed statutory financial statement for the regulated entity for which this filing is being made
- Claim lag triangles.
- The current capital and surplus for the regulated entity.
